PAVIR Talent Community

When you meet Danniel, you start smiling immediately! His positivity shines through and it brightens your day. He moved to the Bay area from the Central Valley, where farmland jobs are prevalent and other work is difficult to find.

Danniel enjoys working with Kevin Limjoco, who joined PAVIR in 2017 and was promoted to a Supervisor position in 2020. *"Kevin treats everyone fairly and equally, and helps me when something is unfamiliar,"* says Danniel. What he appreciates the most about his job? *"Teamwork! It's like family here, everyone is nice and supportive."*

We are happy to have you at PAVIR, Danniel!

Danniel Bravo
Lab Technician

PAVIR engages in nonprofit health research and works with sponsors and the Veterans Affairs Palo Alto Health Care System (VAPAHCS) in administering funds for conducting research to find new and improved ways to combat human disease and help people with disabilities.

As an equal opportunity employer, PAVIR will always endeavor to select the best qualified individuals based on job-related qualifications, irrespective of such factors as race, color, national origin, religion, sex, gender identity, pregnancy, physical or mental disability, medical condition, e.g., cancer-related or genetic characteristics, ancestry, marital status, age, sexual orientation, citizenship, or status as a covered veteran or on any basis prohibited by federal, state or local law.

We attract and retain talented employees who believe in making a difference in the lives of others through their on-going research. In addition to a competitive salary, PAVIR offers a benefits package that includes a choice of medical, dental and vision plans, life and AD&D insurance, flexible spending accounts, Employee Assistance Program and a generous 401(k) retirement plan as well as various leave and holiday benefits. (If the position is less than full-time, certain benefits may not accrue to the employee; this will be verified at time of employment.)

Without Compensation (WOC) appointment requirements: All PAVIR employees are required to have a completed WOC appointment with VAPAHCS. The WOC appointment consists of background clearance, online training, fingerprinting, TB tests, education verification, and other components. The WOC appointment is managed by the Research Administration office at VAPAHCS.
