

Special Contribution Awards are one-time cash awards that do not increase the base salary of employees. They are **not** related to the annual performance review process. They are typically given to recognize outstanding achievement above and beyond normal job requirements, for example work done on a special project. More than one award for the same achievement is not permitted, and these awards should not be given in lieu of a Merit Pay award. Written nominations may be submitted at any time to the Director of Human Resources and the amount of the nomination should not exceed \$3,000.
